THREE OF STRONG
SPIRITS

ACADIAN RUM

80
PROOF

SUGGESTED
RETAIL PRICE **\$42.99**

Although Mainers have been making rum with molasses since the early 18th century, we believe that *Acadian* is the first cane juice rum ever produced in Maine. Grassy and vegetal with a citrus spark, *Acadian* is designed for cocktails featuring agricole and cachaça-style rums, like ti' punch and the caipirinha.

OUR PROCESS

At Three of Strong Spirits, we don't take short cuts. We'd rather do things the right way rather than the easy way. It's how we've crafted each of our pure, rich, drinkable rums.

Acadian starts in the cane fields of Louisiana. We recognize the historical suffering and inequities that have clouded the production of this powerful crop, so we partner with a supplier working exclusively with multi-generational farmers of color to source the cold press sugar cane juice for this rum. The juice is flash frozen just after it is pressed and shipped to our Portland distillery.

After it thaws, we ferment the juice with wine yeast at a slower, cooler temperature, preserving the floral and grassy notes of the sugar cane. It would be easy to rush the ferment, but the resulting spirit would lack character, so we wait until the moment is just right to begin distillation. Instead of a more efficient continuous column distillation process, our master distiller, Graham, runs each small batch of *Acadian* through our Maine-built copper pot still—not once—but twice—relying on his 20+ years of experience to make precise cuts.

At this point, we take the time to rest *Acadian*, allowing the rum to smooth and mellow. We don't add any extra sugar or coloring, allowing the snap of a raw cane juice rum and the subtle complexity of a pot-stilled spirit to shine through in every glass.

OUR STORY

Three of Strong Spirits is based in a converted warehouse in the bustling East Bayside neighborhood of Portland, Maine. We believe that there are no shortcuts when it comes to producing super premium rum. We use our vibrant tasting room as the testing ground to create small batch spirits that can stand on their own but also play well in cocktails.
