OUR PROCESS

Stone Pier fuses the clean cane flavor of our own pot-stilled Brightwater rum with the smooth, tropical depth of a five-year-old column still rum made by a family distillery on the Caribbean coast of Colombia. Like Three of Strong, our Colombian partners make spirits the way we do—without the use of any artificial flavors or ingredients.

Our master distiller, Graham Hamblett, starts each batch of Brightwater with a base of 100% organic evaporated cane juice that has been minimally processed to preserve its grassy, vegetal notes. Graham then adds pure Sebago Lake water and yeast and double distills the rum in small batches in our custom-made copper pot.

The aged rum begins with Grade A molasses, column-distilled under the supervision of a Maestro Ronero, and is then rested for five years in bourbon barrels under the Caribbean sun. We ship the rum at barrel strength to our distillery in Portland, Maine, where Graham proofs and blends the two rums, allowing enough time for the complementary flavors to balance and become greater than the sum of their parts.

OUR STORY

Three of Strong Spirits is based in a converted warehouse in the bustling East Bayside neighborhood of Portland, Maine. We believe that there are no shortcuts when it comes to producing super premium rum. We use our vibrant tasting room as the testing ground to create small batch spirits that can stand on their own but also play well in cocktails.
